**Property Damage:** This is by far the biggest claim maker, which includes damage to your house and any structures on your property due to water, fire and severe storms among others.

**Natural Disaster:** Homewreckers like floods and earthquakes are usually not covered by basic plans, meaning, you'll need added coverage or a separate policy to keep your goodies protected.

**Standard Home Liability:** This will cover you financially if someone is injured or their personal belongings are damaged while on your property.

Customized to fit  
all size firms.

**Extra Money for Living:** If your house is too messed up to live in while it's being repaired or rebuilt, most policies will pay for a hotel and other living expenses, like groceries.

**Personal Property Coverage:** This will depend on the policy. Items like furniture may only be covered up to a depreciated value, but stuff like your bling might not have any coverage and will need additional insurance.
